

About People  
and Things

By C. B. McDowell

Changed His Tune

Michael, six-year old son of Mr. and Mrs. Horton Pick of West Elba, was wading in a ditch with his shoes on after the heavy rain Tuesday evening. A neighbor asked the little fellow if he wasn't afraid he would ruin his shoes and catch cold. He replied that he wasn't afraid of anything. About that time a vivid flash of lightning and a loud clap of thunder lit up the atmosphere and shook the neighborhood, whereupon Michael could be heard shouting, "Mama, Mama."

Hard To Beat

Tuesday morning while on my beat, I dropped into the Vaughn Furniture Company Store and saw something to make me think Luther Vaughan, one of the proprietors, had lost his mind or something. He was dealing heavy blows with a hammer to the porcelain top of a 1950 model Norge electric range. I asked him if he had gone crazy whereupon he invited me to inspect the result of his hammering. A close examination failed to find the least trace of the effects of the beating.

Mr. Vaughan also showed me a pretty display of the new Norge refrigerators, washing machines and other appliances, which he promised to describe in the Clipper as soon as the new mats arrive.

Sister Dies In Mo.

Mrs. C. B. McDowell received a telegram Tuesday night stating that her sister, Mrs. Martha Evans, had died at her home near Carrollton, Mo. after a long illness. She was the eldest of ten children and her death was the first in the family. She was 83 years of age.

Mrs. Evans was the mother of six children, all of whom, with their families, have lived in the country within a radius of six miles all of their lives.

Donald Brunson Recovers From Illness

Donald Brunson, son of Mr. and Mrs. Solie Brunson, was mysteriously stricken with a severe head ailment at his home on Brunson Hill last Friday afternoon. He lost consciousness and was in a delirious condition. It is reported that he had to be held while being carried to Enterprise to the hospital. Hospital doctors made a thorough examination but could discover no visible cause for the acute condition of the patient.

Mr. Brunson said he believed Donald was suffering from a blood clot on the brain and that the penicillin treatment given him scattered the clot and removed the trouble.

Ideal Picnic Grounds

Ben S. Brunson has recently completed a fish pond on what is known as the Price place, adjoining Evergreen cemetery on the north. It is an ideal location for a fish pond and although it has been built only about seven weeks, there is already about 16 feet of water in the deepest part. The pond is fed by several year-round springs and according to Mr. Brunson, when the pond is full, it will cover about five acres including the large area of flat branch-head ground which will be submerged.

On the bank of the pond are numerous cedar trees which are the finest specimens seen in many a day. Mr. Brunson said he plans to establish a picnic ground in this cedar grove, building a house and shelter. When the fish in the pond have had time to grow, he will throw it open to the public. It should be an ideal picnic ground and fishing place.

Mr. Brunson also has a smaller fish pond in the back yard of his home on the Troy highway. It has been stocked with fish, some of which have gained good size.

SINGING CONVENTION

The Class Choir Singing Convention will convene at Babbie, five miles west of Opp, one mile north of the Andalusia highway, Sunday, April 6th. You are invited to come and bring your class choir song books with you.

W. A. Gilchrist, Sec.

## Getting Ready For The Payoff

Hubert Kirkland, Veterans Vocational Agriculture Teacher at Buft Springs, and Harper Smart and Mitch Fuller, veterans in training, have just sprayed their purchased Spotted Poland China sows and pigs with a Benzine Hexachloride solution for hog lice. This chemical is now recommended instead of the old remedy of used motor oil. They are getting these fine blooded pigs ready for the payoff—the time when the pigs will be weaned and carried home by the class members to be grown into broodstock for use on their farms.

## Lions See Movie Of New Era Peanut Harvesting Machine

### Samson Man Hopes To Produce New Machine Soon

Mr. E. E. Johnson, of Samson, was a guest of the Elba Lions Club last Tuesday night and gave an interesting talk and showed a movie on a revolutionary peanut harvesting machine. The new machine is called the New Era Peanut Harvester and has been more than three years in perfection. Mr. Johnson has the only model as it has not been produced for retail sale.

The machine allows the peanuts to stay in the ground 30 to 90 days longer than the old method of harvesting. This permits full development of all peanuts and largely eliminates the "pops" or immature peanuts. It scoops up a row at a time working on much the same principle as a plow except that dirt, peanuts, etc. go up a sleeve or pipe instead of being turned to the side. This passes over a series of separating devices which drop the dirt and rocks back to the ground and puts the peanuts in a sack.

Harvesting is not done until late fall, and sometimes as late as February. By this time the vines have rotted and the peanuts are loose in the ground. The vines return to the ground as fertilizer.

Advantages of the new machine pointed out by Mr. Johnson are the fact that peanuts do not have to be harvested at any specific time. The farmer has a period of up to three months in which harvesting can be done. The peanuts harvested are more mature and grade better. Higher yields per acre result from the more mature peanuts. The soil is not depleted of its fertility, since the vine is not removed.

Disadvantages are that the outside of the peanut is discolored (however Mr. Johnson says this does not affect their grade); and the fact that peanuts are not dry when sacked. It is believed that drying will not be a problem since effort is already being made to devise a way to economically dry peanuts and several drying plants are already in operation.

The machine, if manufactured, will sell for about the same price as a regular peanut picker and can be used with any farm tractor.

That big box Kimmey Dorsey has been seen carrying around the last few days is not to carry his money in. He's passing out cigars this week. Mr. and Mrs. Dorsey are the parents of a brand new son, born at Mitchell Memorial Hospital in Opp April 4th.

## Boll Weevils Open Exhibition Slate

The Enterprise Boll Weevils, members of the Alabama State Class "D", professional baseball league, opened their exhibition slate in Eufaula April 5th. Other exhibition games include:

April 6 Headland in Enterprise  
April 7 Headland in Headland  
April 8 Ozark in Enterprise  
April 9 Enterprise in Dothan  
April 10 and 11 Enterprise in Pensacola  
April 12 Enterprise in Enterprise  
April 13 — Dothan in Enterprise  
April 14 Ozark in Enterprise  
April 15 Montgomery in Enterprise  
The regular season opens on April 18th with Ozark in Enterprise. All home games to start at 7:30 P. M.

## Brother Of Mayor Mullins Dies Sat.

William Edward Mullins, eldest brother of Mayor Mullins, aged 74, died Saturday in Enterprise hospital following a protracted illness. He is survived by his widow, one son, W. E. Mullins Jr., two daughters, Mrs. E. S. Watson of Arlington, Va. and Mrs. James E. Murphy of Mahon, W. Va.; two brothers, J. H. Mullins of Daleville, and L. P. Mullins of Elba; three sisters, Mrs. Emma Jacobs, of Atlanta, Ga., Mrs. V. M. Mixon, of Cairo, Ga., and Mrs. Tannie Windham of St. Andrews, Fla.; five grandchildren. Funeral services were held on Sunday afternoon at the Daleville Baptist Church, with the Rev. I. R. Hicks officiating, assisted by Dr. A. M. Glover and the Rev. Headley. Interment was in Daleville cemetery.

## Elba High Students Present Stunt Night

Stunt Night will be held in the Elba High School auditorium on Friday night, April 14 at 7:30 P. M. Entertainment is promised for the entire family.

Prizes of \$5.00 are being offered for the junior and senior high winners. Capable judges will decide the winners in each case.

The public is cordially invited to attend. Admission is 20 and 35 cents.

## Billy McCollough Heads Society

Twenty-seven upper classmen of STC, Troy, will be initiated into the Zeta Gamma Chapter of Kappa Delta Pi at the annual banquet held at Hotel Troy on Thursday night.

Students are chosen for membership in the honor fraternity on the basis of their scholastic and leadership achievement in the field of education.

Billy McCollough, son of Mr. and Mrs. R. McCollough, of Elba, president of the Troy unit, will preside at the banquet and will conduct initiation ceremonies. Dr. Emmett Kilpatrick will be the principal speaker.

Perry Beard, of Auburn, one of Alabama's greatest trackmen, held the world's record in the 220-yard hurdles for seventeen years. It was not until 1935 that the Auburnite's mark was bettered.

## Woman Unhurt As Car Plunges Into White Water Creek

### Buck Harper Rescues Mrs. Willis After Freak Accident

A near tragedy was averted on Saturday morning when a car driven by Mrs. Fletcher Willis, who resides on Smith Avenue, plunged over a high embankment into White Water Creek.

According to Buck Harper, who rescued Mrs. Willis, a jeep was pushing the Willis car which had refused to start, in front of the home of Mr. and Mrs. J. V. Wright on Smith Avenue, near the approach to the White Water bridge. The Willis car was given a strong push up the grade, but failed to gain enough momentum to keep it going. It started back down the incline and the brakes failed to function.

Mrs. Willis lost control of the car, which backed off the highway and made a wild dash down the steep incline toward the creek. An inspection of the route taken by the runaway car made it hard to understand how it could have missed a good-sized pine and other trees which would have stopped it, but it did. However, one front wheel collided with a large tree on the bank, whirling the car around, causing it to plunge over the 20 ft. embankment from foremost instead of rear first.

The reversal of the car possibly saved Mrs. Willis' life as it prevented the car from reaching the channel, which is something like twenty feet deep. As it was the car stopped in water with about a foot of the gear end above the water.

When Mr. Harper saw the car plunge into the creek, he immediately jumped to the rescue. He warned Mrs. Willis to keep her head above the water and to make no effort to escape her precarious perch as the car had stopped right at the edge of the deep channel and there was danger of their both being drowned. Mrs. Willis followed instructions implicitly and in due time other rescuers hoisted them to safety.

Mrs. Willis sustained a gash on her head and suffered other bodily injuries but is reported to have suffered no serious effects from her harrowing experience.

The car was hoisted out of the creek in a very wet condition, but it is said to have emerged from its high dive and thorough bath in surprisingly good condition.

Perry Beard, of Auburn, one of Alabama's greatest trackmen, held the world's record in the 220-yard hurdles for seventeen years. It was not until 1935 that the Auburnite's mark was bettered.

## City Installs New Six Inch Water Mains

City Clerk T. D. Kendrick announces that the City has purchased approximately 5,000 feet of six-inch water main and seven new fire hydrants. Approximately 1,400 feet of the water pipe will be used to replace the two inch pipe extending up Brunson Hill the Solly Brunson's home. This will supply ample water supply and afford fire protection for that part of the city.

The remaining water pipe will be laid to the John Payne corner in the southwest section of the city. This will be the first time that section of the city has had water service. Necessary fire hydrants will be installed, affording ample fire protection.

The extension of water service and fire protection, according to Mr. Kendrick, will represent an expenditure of approximately \$10,000. All labor is employed by the State Employment Bureau.

## Elba F.F.A. Members Enter Prize Hogs In Montgomery Show

### Five Boys Enter Total Of Eight Hogs; Win \$52 In Prizes

Growing more, better and cheaper hogs are some of the things the Elba FFA members have been working on. In order to test their knowledge and to see how well the practices were paying off, three of the members entered a total of eight fat pigs in the Montgomery fat stock show recently. After the show all three boys and their advisor, R. S. Jones, were proud of their entries. All hogs entered won a place in the show as follows: Albert Lee won first in the top heavy class and third in the medium heavy class; Wilson Dyess took tenth place in the number one division; Wendell Collier took first and second in the light weight division and fourth place in the pen of three. These prizes gave the boys a total of \$52 prize money for the eight pigs.

The hogs were hand finished on corn and brought a premium price. There were around 500 hogs in the show.

## Canal Bridge To Be Refloored Soon

Mayor L. P. Mullins received word Tuesday from the State Highway Department that the bridge over the canal on the Kinston highway will be refloored with concrete. The steel piling which supports the structure has been pronounced satisfactory and will be left intact.

Mayor Mullins was informed that construction will probably commence in about a month, or following the completion of the four-mile and two-mile bridges now under construction on that highway.

Mayor Mullins said he was informed that the Highway Department does not plan to build any temporary bridges, so unless plans are changed, the highway will be closed to traffic until the bridges are completed. Under the present conditions, residents of the communities along the highway detour to Curtis.

## Easter Services At Methodist Church

We give everyone a cordial invitation to attend our Sunday School on this coming Sunday at 9:45 A. M. We also invite you to stay for the preaching service at 11:00 A. M. at which time the pastor, Rev. Fred Davis, will bring an Easter message. The Junior and Youth Fellowship groups will meet at 6:30 P. M. At the hour of evening worship, 7:30 P. M., we will show an Easter picture, "A Journey Unto Pith."

This is a Cathedral film and is reported to be one of the finest Easter Pictures available today. Come and bring all the family to see this inspiring picture. You will receive a warm welcome at the Elba Methodist Church.

Fred L. Davis, Pastor

## Fat Stock Show To Be Held Here April 10th

### Elba To Enter Seven Team League; To Met In Brantley Fri.

### Five Teams Met Here Dozier & Brockton Expected To Join

A baseball meeting was held in Elba Friday night attended by representatives from Elba, Opp, Brantley, Shellhorn and Mossy Grove. It is hoped by those in charge to increase the number of teams to seven, allowing each team a day off from time to time during the playing season. Another meeting has been called to be held in Brantley Friday night, April 7th, at which time representatives from Doder and New Brockton are expected to be present.

At Friday night's meeting by-laws were adopted, opening date tentative schedule and other matters discussed. Baseball enthusiasm is seemingly more pronounced locally than appeared before the season started last year. Local baseball leaders say they believe the Elba Redbirds will be able to field a stronger team this year than last.

## Folmar Gets 10 Year Suspended Sentence For Obstructing R. R.

### Several Defendants Plead Guilty In Criminal Session

Coffee County Circuit court convened in Elba Monday morning at nine o'clock for trial of criminal cases, with Judge C. C. Brannen presiding. Circuit solicitor Eris Paul and Court Stenographer Oliver Jernigan were at their posts.

The court adjourned Tuesday afternoon. A feature of the session was the number of defendants who pled guilty. The following cases were tried: State vs Zackie Frances Dowling, Transporting Liquor. (Continued on Page 4)

## 18 Calves Entered In Show To Be Held At Co-op

The Coffee County Fat Stock Show will be held in Elba, April 10 at 10:00 A. M. at the Co-op Livestock Market.

Eleven boys and girls will enter eighteen high grade calves in the show. These boys and girls began feeding their calves last July in preparation for the show. Ten ribbons and a rosette, and eleven cash prizes will be awarded to the winners.

Also the champion winner will be awarded a leather halter by the A & T Company of Enterprise. The prizes of the show will be contributed by the Enterprise Rotary and Lions clubs, and the merchants and businessmen of Elba, Kinston and New Brockton.

Following the county show the sixteen calves will be transported to Dothan where they will compete for honors at the Tri-State Show and Sale, April 11 and 12.

Everyone is invited to attend these shows to see what the boys and girls are doing with better feeding and management practices with their calves.

The boys and girls entering calves in the show are as follows: Moses Baker, Ephraim Baker, John Jones, Bobbie Lee Jones, Charles Blair, Betty Lou Blair, Willie Frank Howell, Mary Sue Gilson, Lomax Donaldson, Ellis Wise and Hayward Meeks.

On Wednesday, April 12th, "Judge Roy Bean" International Grand Champion Steer will be shown at the Tri-State Show in Dothan. Be sure to attend this show and register as a Coffee County visitor when you enter the show barn.

## Armory Drive Paved

The circular driveway in front of Fort Charles L. Rowe has been blacktopped along with other helpful grading of the grounds. This is one of the best equipped and best kept armories in the state, so pronounced by competent critics. This is in keeping with being home of a National Guard unit that is a perpetuation of a military battalion that made one of the most outstanding records of any battalion during its service in World War II.

## Basin First Community To Erect Sign

Pictured above are Mrs. Orell Parker, Basin left, and Miss Marie Matthews, home demonstration agent. They are observing the new sign in the Basin community. The sign is located in front of the Basin school.

Mrs. Parker, county communities activities chairman in the County Council of Home Demonstration Clubs, was responsible for the erection of the sign.

She managed to get the sign showing all the activities of the community, erected prior to the county workshop which was held in Elba.

At the workshop, which was held December 30, Mrs. Parker suggested that signs like this be erected in each of the other 31 communities in the county.

Entered as second class matter July 18, 1935, at the Postoffice at Elba, Alabama, under the Act of Congress of March 3, 1879.

## KINSTON NEWS

(By Mrs. Rayford Stephens)

Mr. and Mrs. R. B. Coon and Mrs. Earnest Bryant and daughter, Earnestine, of Andalusia, were Sunday guests of Mr. Shell and Miss Viena Coon and Mrs. M. D. Rigby.

Mr. and Mrs. J. L. Crawley spent the AEA holidays in Waverly, Alabama with friends and relatives.

Mrs. Fay Anderson returned from Gibson Hospital in Enterprise Monday after undergoing a major operation. She is recovering nicely.

Miss Jean Meacham visited Mr. and Mrs. Earnest Bryant on Sunday during the week-end.

Mr. and Mrs. J. M. Hattaway and Charlie Blankenship of Ponce de Leon, Fla. visited relatives and friends here Sunday.

Mr. E. C. Nevin, Mr. Jack Solomon, Mr. Leon Hornsby and Mrs. C. W. Clark attended AEA convention in Birmingham last Thursday and Friday.

Mr. and Mrs. J. M. Jernigan and family, Mrs. M. D. Jernigan and son, Steve, and Miss Carolyn Maddox of Mobile, spent the week-end with relatives and friends here.

Mrs. J. C. McLeod, of Opp, was a guest of her sister, Mrs. Horace Brook, Sunday.

## THE ELBA CLIPPER, ELBA, ALABAMA

Miss Lizzie Hataway of Winter Haven, Fla. recently visited relatives here.

Mr. and Mrs. W. C. Jernigan and children, John, Lewis and Sara, of Haines City, Fla. visited relatives here Saturday. They were accompanied by Mrs. Emma Gousson who had been their guest for several weeks.

Mr. and Mrs. J. M. Roberts visited Mr. and Mrs. S. P. Kimbro and family in Columbus, Ga. during the holidays.

The sectional CA rally will be held at the Assembly of God Church here Tuesday night, April 11. Mr. Sammy Myzell will have charge.

Miss Doris Stinehome of Montgomery spent the week-end with her grandmother, Mrs. W. Hare.

Mrs. Walker Hataway and daughter, Walkenita, spent the week-end in State, Ala. with Mr. and Mrs. O. C. Baker.

"Say, Mister, has the three-train gone yet?"

"The three-train left a quarter of an hour ago."

"And how soon will the four-o'clock train be along, do you think?"

"It'll be quite a while before that train is due."

"Are there any passenger trains before then?"

"No."

"No trains at all?"

"None."

"Are you sure?"

"Certainly, I'm sure!" bawled the exasperated ticket-agent.

"Then, Sophie," said the old farmer, turning to his wife, "now I reckon we can cross them tracks."

"TAKES HIS TURN"

"Tell me, Junior, do you ever peep through the keyhole when your sister and I are sitting here in the daventry alone?"

"Sometimes, when mother or sister Jane aren't looking."

"Just to be sure"

A tall, gaunt-looking person recently entered a hotel in a town where several fires had occurred and applied for a room at a price which entitled him to lodging on the top floor of the house. Among his belongings the proprietor noticed a coil of rope, and asked what it was for.

"That's a fire escape," said the man. "I carry one with me so I can let myself down from the window without troubling anyone."

"Good plan," said the landlord, "but guests with fire escapes like that pay in advance at this hotel."

Identification

A professor was one day nearing the close of a history lecture and was indulging in one of those rhetorical climaxes in which he delighted when the hour struck. The students immediately began to slum down the movable arms of their lecture chairs and to prepare to leave.

The professor, annoyed at the interruption of his flow of eloquence, held up his hand:

"Wait just one minute, gentlemen. I have a few more pearls to cast."

A tall, gaunt-looking person recently entered a hotel in a town where several fires had occurred and applied for a room at a price which entitled him to lodging on the top floor of the house. Among his belongings the proprietor noticed a coil of rope, and asked what it was for.

"That's a fire escape," said the man. "I carry one with me so I can let myself down from the window without troubling anyone."

"Good plan," said the landlord, "but guests with fire escapes like that pay in advance at this hotel."

Identification

A professor was one day nearing the close of a history lecture and was indulging in one of those rhetorical climaxes in which he delighted when the hour struck. The students immediately began to slum down the movable arms of their lecture chairs and to prepare to leave.

The professor, annoyed at the interruption of his flow of eloquence, held up his hand:

"Wait just one minute, gentlemen. I have a few more pearls to cast."

## THE ELBA CLIPPER, ELBA, ALABAMA

Mr. and Mrs. W. C. Jernigan and children, John, Lewis and Sara, of Haines City, Fla. visited relatives here Saturday. They were accompanied by Mrs. Emma Gousson who had been their guest for several weeks.

Mr. and Mrs. J. M. Roberts visited Mr. and Mrs. S. P. Kimbro and family in Columbus, Ga. during the holidays.

The sectional CA rally will be held at the Assembly of God Church here Tuesday night, April 11. Mr. Sammy Myzell will have charge.

Miss Doris Stinehome of Montgomery spent the week-end with her grandmother, Mrs. W. Hare.

Mrs. Walker Hataway and daughter, Walkenita, spent the week-end in State, Ala. with Mr. and Mrs. O. C. Baker.

"Say, Mister, has the three-train gone yet?"

"The three-train left a quarter of an hour ago."

"And how soon will the four-o'clock train be along, do you think?"

"It'll be quite a while before that train is due."

"Are there any passenger trains before then?"

"No."

"No trains at all?"

"None."

"Are you sure?"

"Certainly, I'm sure!" bawled the exasperated ticket-agent.

"Then, Sophie," said the old farmer, turning to his wife, "now I reckon we can cross them tracks."

"TAKES HIS TURN"

"Tell me, Junior, do you ever peep through the keyhole when your sister and I are sitting here in the daventry alone?"

"Sometimes, when mother or sister Jane aren't looking."

"Just to be sure"

## Silk Shantung for Spring

Notched revers, drop shoulders, and a new Oriental ruffled sleeve effect are fashion highlights of this pure silk shantung suit. It has a straight, fitted skirt, mountain buttons and a Marie of A. Goulland label. The colors are shirley, fawn, navy or black. Consultation with the editors close in for spring wardrobe. The price—about \$10.

## COMMISSIONERS ASK

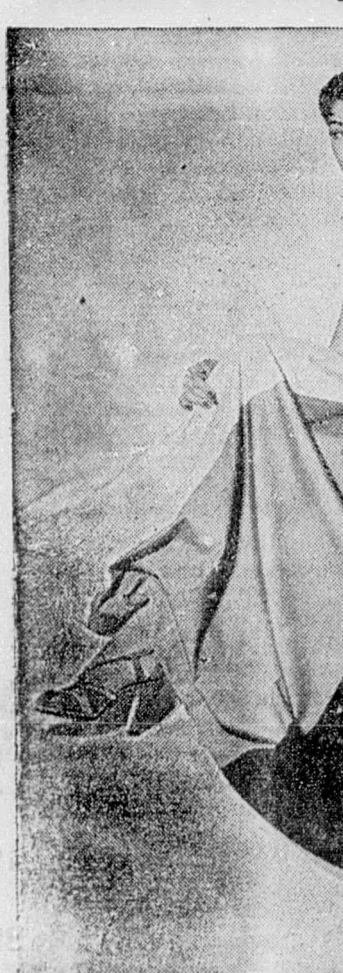

divided among the four districts after the State roads have been completed and taken over by the State each Commissioner is undertaking, in cooperation with the other Commissioners the building of certain farm to market roads in their respective districts, and in order to carry this idea forward the Court is undertaking to use as much of the funds as possible to build permanent roads rather than spending money for maintenance. That is to say, as much of the funds as possible be used in being used by the County, the County bearing the entire expense of grading and draining the roads, when this grading and draining is done then under the farm to market program the roads are being blacktopped, thus it will be seen that every mile of road built under this program makes a permanent road and the more permanent roads we have the less maintenance is necessary, and in this manner we continue at a greater rate our building program. And to do this, we need your cooperation in giving us rights of way and in permitting us to locate the roads where the expense will be the least for construction.

During the past twelve months Coffee County has built 16 miles of hard-surfaced roads; we have now under construction approximately 20 miles which we hope to complete this year. We have projects already under construction and in the preliminary

stages, looking to the paving of approximately 26 miles next year. Will you please continue your cooperation and in the future, if you can, give us more help than you have heretofore. In this manner we can have the best road system of any county in the state and assure you that we are spending every dollar of your road and bridge funds in building permanent roads in maintaining the ones that cannot be made permanent roads at this time.

Yours very truly,  
County Commissioners of Coffee County

## Cotton Evening Dress for Spring

Broad, ruffled panels in the skirt and a high, choker-type collar on the bodice give this evening ensemble a regal air. Made by Lett and Co. from Wesley Simpson's "Rustler" cotton, it was selected by Connie Brown, editor of a spring wardrobe. The skirt, cut full and long, is in a delicate rose-white, or green-moss and sold for about \$25. Another \$25 for the bodice, which buttons to the waist and is gray, therefore, it is a very solid color.

## FOLMAR GETS TEN

(Continued from Page 1)

State vs Arthur D. Newsome, Transporting liquor. Continued. State vs Allen Devine, Attempt to murder. Verdict of not guilty. State vs Cecil Bishop, Attempt to murder. Not prosed.

State vs Oscar Blackmon, Receiving stolen property. Continued.

State vs Rufus Johnson, V.P.L. Plead guilty. Fined \$50 and sentenced to hard labor for county for six months.

State vs Willie B. Forgy, Plead guilty. Sentenced to penitentiary for two years.

State vs Willie B. Forgy, Plead guilty. Sentenced to penitentiary for two years in probation for three years. Sentence suspended on condition he pay \$47.10 within one week and costs within 30 days.

State vs Oscar Blackmon, Unlawful peeping. Forfeiture against defendant and Folmar, obstructing railroad tracks. Plead guilty. Sentenced to ten years in penitentiary. Put on probation for ten years and sentenced suspended on condition he pay costs at rate of \$50 per month, first payment to be made in 30 days by cutting timber on lands of another. Not prosed.

State vs Hollis Miles, Trespass by cutting timber on lands of another. Not prosed.

State vs Cliff Goodson, Forgery. Not prosed.

State vs Lawrence Dennis, Alias, Selling or removing mortgaged property. Forfeiture against defendant; bail fixed at \$1,000.

A number of other cases were continued.

## On The Farm With The Vet Trainees

GOOD GARDENING  
Twelve vegetables growing in the garden on March 10th, with six of the twelve ready for table use. This is the kind of garden we found at Mr. Bowden Sessions' when we paid him a visit a few weeks ago.

The twelve vegetables growing were Cabbage, Turnips, beets, lettuce, mustard, strawberries, onions, carrots, bunch snapbeans, garden peas and Irish potatoes, the first six of these being at the edible stage. The Irish potatoes and the English peas were only a few days off.

In discussing Mr. Sessions' training program with him, it was found that he is thoroughly sold on growing a large part of his food on his farm. He also thinks that in order to have a good supply of vegetables for the table and canning, you must have a good, early garden, one that isn't bothered much with insects, weeds, and heat as are the late gardens of July and August.

For each sandwich, split a bun and spread each bun half with mayonnaise. Top one bun half with a slice of pineapple garnished with a maraschino cherry cut in quarters. Place a slice of cheese on the other bun half. Arrange on a chop plate alternating the pineapple topped bun halves and the bun halves with cheese. Garnish the center of the plate with maraschino cherries in a nest of lettuce.

Pineapple and Cheese Sandwiches  
Pineapple and cheese slices served open face style are a family luncheon treat that you'll repeat for guests. The flavors are proven favorites and the sandwiches have an easy to achieve attractive look that rates applause for you as an artist with food.

For perfect cheese slices buy half-pound packages of pasteurized process American in slices, wrapped and sealed right after pasteurization in the food plant where they are made. Each half-pound package contains eight perfect one-ounce slices that separate easily. Cut the wrapper of each package through the center on three sides. Use slices from the center first. Close package, like a book, for easy protection of any unused slices. Choose these marvellously convenient packages of perfect cheese slices in a variety of flavors from your grocer's refrigerator case.

Garnish the center of the plate with maraschino cherries in a nest of lettuce.

Pineapple and Cheese Sandwiches  
Pineapple and cheese slices served open face style are a family luncheon treat that you'll repeat for guests. The flavors are proven favorites and the sandwiches have an easy to achieve attractive look that rates applause for you as an artist with food.

For perfect cheese slices buy half-pound packages of pasteurized process American in slices, wrapped and sealed right after pasteurization in the food plant where they are made. Each half-pound package contains eight perfect one-ounce slices that separate easily. Cut the wrapper of each package through the center on three sides. Use slices from the center first. Close package, like a book, for easy protection of any unused slices. Choose these marvellously convenient packages of perfect cheese slices in a variety of flavors from your grocer's refrigerator case.

## On The Farm With The Vet Trainees

GOOD GARDENING  
Twelve vegetables growing in the garden on March 10th, with six of the twelve ready for table use. This is the kind of garden we found at Mr. Bowden Sessions' when we paid him a visit a few weeks ago.

The twelve vegetables growing were Cabbage, Turnips, beets, lettuce, mustard, strawberries, onions, carrots, bunch snapbeans, garden peas and Irish potatoes, the first six of these being at the edible stage. The Irish potatoes and the English peas were only a few days off.

In discussing Mr. Sessions' training program with him, it was found that he is thoroughly sold on growing a large part of his food on his farm. He also thinks that in order to have a good supply of vegetables for the table and canning, you must have a good, early garden, one that isn't bothered much with insects, weeds, and heat as are the late gardens of July and August.

## STEPHENS CIRCLE MEETS WITH MRS. SAWYER

The Stephens Circle of the Baptist WMS held its regular meeting Monday afternoon at the home of Mrs. Claude Sawyer with nine members present.

Mrs. Tom Brook, co-chairman, presided during a brief business session.

Minutes were recorded by the secretary, Mrs. J. A. Harris and the devotional exercises were led by Mrs. Claude Sawyer.

Mrs. J. W. Brook gave an interesting topic taken from Christian Herald, "The Rock that Moved" by Peter Marshall.

Mrs. Dan Fuller gave "God Directs Our Lives" taken from "Home Life".

During the social hour the hostess served a salad plate and Coca-Cola to the following:

Medames T. W. Brook, J. W. Brook, S. D. Fuller, J. A. Harris, J. H. Dykes, G. P. Gunter, Misses Susan Folsom and Julia Harris.

## MRS. JONES CELEBRATES EIGHTY-FIRST BIRTHDAY

Mrs. W. C. Jones was honored on her 81st birthday with a dinner at Lake Lucille last Sunday.

Those present were Mrs. J. S. Johnson and son, Randolph Mr. and Mrs. Carl Grady and daughter, Gayle, of Columbus, Ga. Dr. and Mrs. M. K. Heath and daughter, Micky, Betty Sue and Bill Brooks of Birmingham, Mr. and Mrs. Dewey Rowe and granddaughter, Pat Streetman, of Marianna, Fla., Mr. Joe King of Pinckard, Mr. and Mrs. Murphy Heath and son Jim, Mr. and Mrs. Marion Martin and children, Billy and Barbara, of Kato, Okla., Mr. and Mrs. James Wise and children of Elba, Mr. and Mrs. Harold Brooks and daughter, Gayle, of Ozark, Mr. and Mrs. Howard Wise, Mr. and Mrs. E. C. Brooks, Miss Jane Brooks, Mr. and Mrs. Claude Sawyer, Mr. and Mrs. L. P. Jones Mr. and Mrs. H. B. Jones, Mr. and Mrs. John I. Jones and daughters, Sally and Linda, Mr. and Mrs. J. K. Hayes and daughters, Patricia and Libby, Mr. and Mrs. Hugh Semmes and son, Tom.

## Baby Girl Survives After Lung Collapse From Inhaled Bean

CHICAGO, Ill.—A 14-month-old girl whose lung collapsed when a bean lodged in it is recovering after a 107-mile race in which her ambulance burned out its motor, and she was still stuck for first aid on a highway.

The child of incidents was set off when a common navy bean fell into the mouth of Mrs. and Mr. Wayne Alford of Berrien Center, Mich.

Their daughter, Patsy Ann, found the bean and put it in her mouth. Then she inhaled it into her right bronchial tube. By the next day the bean had swollen with moisture to the size of an apricot. It blocked off her breathing passage and collapsed her right lung.

Soon she began turning blue and in X-ray showed she was likely to die. A doctor recommended that she be taken to Chicago as quickly as possible.

Undertaker Francis A. Bowerman of East Chicago, Mich., volunteered to drive her in his ambulance. The Alford's accompanied him and the X-ray plates until the ambulance was out of town. Bowerman was driven back to police car to pick up the plates.

Meanwhile, the second ambulance of East Chicago quickly transferred Patsy Ann to another ambulance. But they and the attendants forgot the X-ray plates until the ambulance was out of town. Bowerman was driven back to police car to pick up the plates.

Probably smallest object ever mass-produced is 1-mm. steel ball, here being examined for perfect roundness by Slick Industries craftsman. They're used in ball-point pens and your car's engine instruments, delicate measuring instruments.

At Gary, Ind., the ambulance's motor burned out. Officers quickly transferred Patsy Ann to another ambulance. But they and the attendants forgot the X-ray plates until the ambulance was out of town. Bowerman was driven back to police car to pick up the plates.

## HEALTH HINTS for LIVESTOCK

VACCINES SAVE FARM PROFITS New vaccines developed by veterinary science during the last few years are saving livestock and poultry millions of dollars. But-what chicks play a big part in the advances that have

entails no more health vaccines against such diseases as equine anemia, fowl pox, Newcastle disease and lymphogranulosis of fowls from the infected embryos.

Through similar methods, veterinarians have developed a vaccine which protects cattle against rinderpest, the deadly "tropical cattle plague."

Another system is being used to make effective vaccines against foot-and-mouth disease of cattle and contagious sore mouth of sheep. This method is based on removing the disease-causing power of a virus, but leaving its ability to immunize. Thus, when the vaccine is injected into an animal, the animal does not come down with the disease, but builds up resistance to it.

Not only have these discoveries proved valuable in veterinary medicine, but also they are being used to develop vaccines that will protect human beings against virus diseases.

The search for new vaccines is by no means ended for many of the known virus diseases of man and animals have yet to be conquered.

Vaccines now produced from chick embryos. New methods have been made. New vaccines have been made possible to grow disease-producing viruses in the chick embryos. By this technique, ad-

had sat for long, silent moments watching the afterglow of a blood-red sunset.

Unexpectantly Phil said: "Well it's gone. And our vacation has gone. Tonight winds up the two weeks."

"There's always an end to nice things," she told him evasively.

"There doesn't have to be," Ever Litch said. "I went on eagerly. I gave you the wrong impression about myself. I'm not a successful lawyer. I never should have tried to be a lawyer. Thank heavens I realized the mistake before it was too late."

"You mean you're not leaving? You're staying here?"

"I'm going to try and raise apples. Auntie and I are going to be partners. This fall I'll set out new trees. He picked up her hand. "Honey, let's make a threesome. I know it's a lot to ask," he added wistfully. "A city girl like you, I'll be dull. But eventually—"

"I could chip in my roadster," Janice cried excitedly. "It's all I have, but it ought to bring \$500. How many apple trees can you buy with \$500, darling?"

"Enough," said Phil, reading her eyes. "To keep from being lone-some—I guess."

"I could chip in my roadster," Janice cried excitedly. "It's all I have, but it ought to bring \$500. How many apple trees can you buy with \$500, darling?"

"Enough," said Phil, reading her eyes. "To keep from being lone-some—I guess."

## Elba Exchange Bank PRESENTS INTERESTING FACTS ABOUT ALABAMA

Gunnison House at Point Clear is a white frame, two-story house that was used during the War Between the States as a hospital for wounded Confederate soldiers. During a bombardment by Admiral Farragut's fleet in 1864, a ball hit the house, and a brass plate bearing the inscription, "Commemorates of the Admiral Farragut, 1864," now covers the hole made by the shot. After the war, Gunnison House became a "Monte Carlo," where money, cotton crops, and sometimes entire plantations changed hands at the gambling tables. It is now a private home.

## NOTICE

To whom it may concern: This is to advise that I do not claim any interest of ownership in or to the Trading Post, Elba, Ala., that said Trading Post is owned by Cary N. Clark. I am employed by Cary N. Clark to work in and for the Trading Post, Elba, Ala. James R. Devane 31mar31cld

## Big Mac of House Held Mighty Weapon, But Is Little Used

WASHINGTON, D. C.—Joe Callahan, of Bellevue, Ky., hasn't used it yet, but he is equipped with a mighty powerful weapon. It's the mace, symbol of authority, of the national house of representatives. Callahan, house sergeant-at-arms, of the house, adopted in 1789, point out that his job is to maintain order under direction of the speaker, and that the "mace" of his office shall be the mace, which shall be borne by him while enforcing order on the floor. "An sergeant, apparently, had gotten into trouble trying to enforce order with no mace."

The mace would not be very effective to stop a street-corner battle. In fact, some suspect it would be a handicap to Callahan if he had to spirit up the aisle tomorrow to part two battling congressmen. Its power lies in the fact that it is the symbol of authority of the house.

The mace is 46 inches in height and consists chiefly of 13 ebony rods—one for each of the original states—bound together with silver bands and surmounted by a 4½-inch silver globe, atop which sits a solid maple eagle, with an axe handle and carried as a symbol of authority. The rods signed authority to behold. The Romans took fuses to behead. The Romans took fuses to behead. The Romans took fuses to behead.

Our Mace is a survival of the Roman fasces, which was a bundle of rods wrapped together with silver bands and surmounted by a 4½-inch silver globe, atop which sits a solid maple eagle, with an axe handle and carried as a symbol of authority. The rods signed authority to behold. The Romans took fuses to behead. The Romans took fuses to behead. The Romans took fuses to behead.
